

New Source Review newspaper advertisements for construction permit applications, May 5, 2005. The following public notices have been published in the newspapers listed below each advertisement. These newspaper advertisements for construction permit applications were published on one of the following dates: May 3, May 4, or May 5, 2005. Public notices are generally published every two weeks. The previous publication of public notices was April 19 – 21, 2005.

### PUBLIC NOTICE

The Tennessee Division of Air Pollution Control (TDAPC) has received requests for construction of air contaminant sources as noted below. The proposed construction is subject to part 1200-3-9-.01(1)(h) of the Tennessee Air Pollution Control Regulations, which requires a public notification and 30-day public comment period. Interested parties may express their comments and concerns in writing to Mr. Barry R. Stephens, Director, Division of Air Pollution Control, 9<sup>th</sup> Floor, L & C Annex, 401 Church Street, Nashville, Tennessee 37243-1531 within thirty (30) days of the date of this notice. Questions concerning a source may be addressed to the assigned Division personnel at the same address or by calling 615-532-0554.

Individuals with disabilities who wish to participate should contact the Tennessee Department of Environment and Conservation to discuss any auxiliary aids or services needed to facilitate such participation. Such contact may be in person, by writing, telephone, or other means, and should be made no less than ten days prior to the end of the public comment period to allow time to provide such aid or services. Contact the Tennessee Department of Environment and Conservation ADA Coordinator, 12th Floor, 401 Church Street, Nashville, TN 37243, 1-866-253-5827. Hearing impaired callers may use the Tennessee Relay Service, 1-(800)-848-0298.

The applicant is Nuclear Lead Co., Inc. with a mailing address of 1007 Alvin Weinberg Drive, Oak Ridge, TN 37830. They seek to obtain an air contaminant permit (Division identification number: 01-0162-01/57982) for a Lead Melting Operation located at the same address. This existing operation consists of a natural gas-fired burner and associated equipment used to melt lead for production of containers, counterweights, and measures. Because of the amount and type of emissions, the use of pollution control equipment is not proposed. There would be no physical construction. Regulated air contaminants are emitted by this source. Mr. K. McLain is the assigned Division person.

For the Anderson County "Oak Ridger"--published once on or before Thursday, May 5, 2005.

---

The applicant is Vulcan Construction Materials, L.P. with a mailing address of P.O. Box 7, Knoxville, TN 37901. They seek to obtain an air contaminant permit (Division identification number: 08-0034-03/58181) for construction of a Generator at 482 Hurst Lane, Readyville, TN 37149. This proposed operation would consist of an electric generator powered by a diesel internal combustion engine and would be used to provide power for a pump or other equipment. Because of the amount and type of emissions, the use of pollution control equipment is not proposed. There would be physical construction. Regulated air contaminants would be emitted by this source. Mr. M. Reynolds is the assigned Division person.

For the Cannon County "Cannon Courier"--published once on or before Thursday, May 5, 2005.

---

The applicant is Snap-On Tools Manufacturing Co. with a mailing address of P.O. Box 1690, Elizabethton, TN 37644-1690. They seek to obtain air contaminant permits for air contaminant sources located at 2195 State Line Road, Elizabethton, TN 37644, as follows:

(1) Heat Treatment Operation (Division identification number: 10-0075-36/57973). This existing operation consists of an endo-gas generator with a natural gas-fired burner. Because of the amount and type of emissions, the use of pollution control equipment is not proposed. There would be no physical construction. Regulated air contaminants are emitted by this source. Mr. K. McLain is the assigned Division person.

(2) Heat Treatment Operation (Division identification number: 10-0075-37/57974). This existing operation consists of a two-zone hardening furnace with a natural gas-fired burner. Because of the amount and type of emissions, the use of pollution control equipment is not proposed. There would be no physical construction. Regulated air contaminants are emitted by this source. Mr. K. McLain is the assigned Division person.

(3) Heat Treatment Operation (Division identification number: 10-0075-38/57975). This existing source consists of a draw furnace with a natural gas-fired burner. Because of the amount and type of emissions, the use of pollution control equipment is not proposed. There would be no physical construction. Regulated air contaminants are emitted by this source. Mr. K. McLain is the assigned Division person.

(4) Heat Treatment Operation (Division identification number: 10-0075-39/57976). This existing source consists of a draw furnace with a natural gas-fired burner. Because of the amount and type of emissions, the use of pollution control equipment is not proposed. There would be no physical construction. Regulated air contaminants are emitted by this source. Mr. K. McLain is the assigned Division person.

(5) Plating Operation (Division identification number: 10-0075-40/57983). This existing source consists of various equipment for nickel/trivalent chrome plating of steel hand tools. A horizontal fume scrubber is used for pollution control. There would be no physical construction. Regulated air contaminants are emitted by this source. Mr. K. McLain is the assigned Division person.

For the Carter County "Elizabethton Star"--published once on or before Thursday, May 5, 2005.

#### FIRST APPLICANT

The first applicant is Farmers Friendship Gin Inc. with a mailing address of P.O. Box 266, Friendship, TN 38034. They seek to obtain an air contaminant permit (Division identification number: 17-0013-01/58156) for modification of a Cotton Gin located at 7226 Hwy 189, Friendship, TN 38034. This existing operation consists of gin stands, lint cleaners, and associated equipment used to de-seed cotton. Cyclones and mesh screen are used for pollution control. The requested modification is to increase the permitted annual bales of cotton processed. There would be no physical construction. Regulated air contaminants emitted by this source would increase. Mr. J. Fuss is the assigned Division person.

#### SECOND APPLICANT

The second applicant is L & H Gin Company, Inc. with a mailing address of P.O. Box 381, Alamo, TN 38001. They seek to obtain an air contaminant permit (Division identification number: 17-0005-01/58167) for modification of a Cotton Gin located at 486 N. Bells St, Alamo, TN 38001. This existing operation consists of gin stands, lint cleaners, and associated equipment used to de-seed cotton. Cyclones and mesh screen are used for pollution control. The requested modification is to increase the permitted annual bales of cotton processed. There would be no physical construction. Regulated air contaminants emitted by this source would increase. Mr. J. Fuss is the assigned Division person.

The applicant is Tyson Foods, Inc. with a mailing address of 234 Tyson Drive, Estill Springs, TN 37330. They seek to obtain an air contaminant permit (Division identification number: 26-0088-01/57946) for modification of a Feed Mill located at the same address. This existing operation consists of storage silos, material receiving hoppers, grinders, pelletizers, and associated equipment used to produce feed for livestock. Cyclones and fabric filters are used for pollution control. The requested modification is to increase the process throughput. There would be no physical construction. Regulated air contaminants emitted by this source would increase. Mr. J. Fuss is the assigned Division person.

For the Franklin County "Herald-Chronicle"--published once on or before Thursday, May 5, 2005.

---

#### FIRST APPLICANT

The first applicant is Riverbend Construction Materials with a mailing address of 605 Cherokee Explosives Drive, Rutledge, TN 37861. They seek to obtain an air contaminant permit (Division identification number: 29-0039-05/58157) to construct a Diesel Engine Operation at Highway 92, Jefferson City, TN 37760. This proposed operation would consist of a diesel engine used to provide power for a portable rock crushing operation. Because of the amount and type of emissions, the use of air pollution control equipment is not proposed. There would be physical construction. Regulated air contaminants would be emitted by this source. Mr. J. Martin is the assigned Division person.

#### SECOND APPLICANT

The second applicant is Petosky Plastics, Inc. with a mailing address of 5725 Commerce Blvd, Morristown, TN 37814. They seek to obtain an air contaminant permit (Division identification number: 32-0173-11/58057) for construction of a Blown Film Extrusion Line at 5725 Commerce Boulevard, Morristown, TN 37814. This proposed operation would consist of a blown film extrusion line, including two (2) in-line Bellmark Printers and two inkjet printers. Because of the amount and type of emissions, the use of pollution control equipment is not proposed. There would be physical construction. Regulated air contaminants would be emitted by this source. Mr. V. Murrell is the assigned Division person.

For the Hamblen County "Citizen Tribune"--published once on or before Thursday, May 5, 2005.

---

The applicant is Tibbs Gin Company with a mailing address of 9445 Tibbs Road, Brownsville, TN 38012. They seek to obtain an air contaminant permit (Division identification number: 38-0016-01/58171) for modification of a Cotton Gin located at the same address. This existing operation consists of gin stands, lint cleaners, and associated equipment used to de-seed cotton. Cyclones and mesh screen are used for pollution control. The requested modification is to increase the permitted annual bales of cotton processed. There would be no physical construction. Regulated air contaminants emitted by this source would increase. Mr. J. Fuss is the assigned Division person.

For the Haywood County "States Graphic"--published once on or before Thursday, May 5, 2005.

---

The applicant is Two-Way Gin Company, Inc. with a mailing address of 333 S. Washington, Brownsville, TN 38012. They seek to obtain an air contaminant permit (Division identification number: 38-0032-01/58182) for modification of a Cotton Gin located at the same address. This existing operation consists of gin stands, lint cleaners, and associated equipment used to de-seed cotton. Cyclones and mesh screen are used for pollution

control. The requested modification is to increase the permitted annual bales of cotton processed. There would be no physical construction. Regulated air contaminants emitted by this source would increase. Mr. J. Fuss is the assigned Division person.

For the Haywood County "States Graphic"--published once on or before Thursday, May 5, 2005.

---

The applicant is Crockett Gin Co., LLC dba Edwards Gin Company with a mailing address of P.O. Box 278, Halls, TN 38040. They seek to obtain an air contaminant permit (Division identification number: 49-0009-01/58168) for modification of a Cotton Gin located at 305 East Main Street, Halls, TN 38040. This existing operation consists of gin stands, lint cleaners, and associated equipment used to de-seed cotton. Cyclones and mesh screen are used for pollution control. The requested modification is to increase the permitted annual bales of cotton processed. There would be no physical construction. Regulated air contaminants emitted by this source would increase. Mr. J. Fuss is the assigned Division person.

For the "Lauderdale County Enterprise"--published once on or before Thursday, May 5, 2005.

---

The applicant is IMCO Recycling, Inc. with a mailing address of P.O. Box 187, Loudon, TN 37774. They seek to obtain an air contaminant permit (Division identification number: 53-0079-06/58162) for modification of the existing Scrap Preparation Process associated with their Secondary Aluminum Production Operation located at 388 Williamson Drive, Loudon, TN 37774. This existing operation consists of two rotary aluminum furnaces, bale breaker, shredder, and air knife with a baghouse for particulate matter control. The requested modification is to add a separate and independent baghouse control for the bale breaker, shredder, and air knife. There would be physical construction. Regulated air contaminants emitted by this source would not increase. Mr. Steven Simpson is the assigned Division person.

For the Loudon County "News-Herald"--published once on or before Thursday, May 5, 2005.

---

The applicant is Pinnacle Foods Group, Inc. with a mailing address of 96 Quaker Oats Drive, P. O. Box, Jackson, TN 38302-2688. They seek to obtain an air contaminant permit (Division identification number: 57-0078-13/58090) for construction of a Fryer System at the same address. This proposed operation would consist of two (2) fryers and one (1) natural gas heater. A venturi scrubber and packed tower would be used for pollution control. There would be physical construction. Regulated air contaminants would be emitted by this source. Ms. G. Latif is the assigned Division person.

For the Madison County "Jackson Sun"--published once on or before Thursday, May 5, 2005.

---

The applicant is Innertech-Mt. Pleasant with a mailing address of One Timco Drive, Bldg. 110, Mt. Pleasant, TN 38474. They seek to obtain an air contaminant permit (Division identification number: 60-0187-02/58158) for construction of a Molding/Binding Operation at the same address. This proposed operation would consist of a molding press, a binding machine, and associated equipment used to produce molded parts for use in the production of automobiles. Because of the amount and type of emissions, the use of pollution control equipment is not proposed. There would be physical construction. Regulated air contaminants would be emitted by this source. Mr. J. Fuss is the assigned Division person.

For the Maury County "Daily Herald"--published once on or before Thursday, May 5, 2005.

---

The applicant is United Wheel Industries with a mailing address of 327 Industrial Park Road, Sweetwater, TN 37874. They seek to obtain an air contaminant permit (Division identification number: 62-0123-01/58145) for construction of a Sweat Furnace at the same address. This proposed operation would consist of a sweat furnace used to recover aluminum from scrap metal parts. Natural gas would be the primary fuel, and propane would be used as backup fuel. An afterburner would be used for pollution control. There would be physical construction. Regulated air contaminants would be emitted by this source. Mr. J. Martin is the assigned Division person.

For the "Monroe County Advocate"--published once on or before Thursday, May 5, 2005.

---

The applicant is Vulcan Construction Materials, L.P. with a mailing address of P.O. Box 7, Knoxville, TN 37901. They seek to obtain air contaminant permits for construction of air contaminant sources to be located at 2988 Dacco Quarry Road, Cookeville, TN 38506, as follows:

(1) Portable Crushing Operation (Division identification number: 71-0180-04/58159). This proposed operation would consist of a crusher, screen, conveyors, feeder, stockpiles and associated equipment used to crush and size riprap. Wet suppression would be used for pollution control. There would be physical construction. Regulated air contaminants would be emitted by this source. Mr. M. Reynolds is the assigned Division person.

(2) Generator (Division identification number: 71-0180-05/58160). This proposed operation would consist of an electric generator powered by a diesel internal combustion engine and would be used to provide power to the portable crushing operation. Because of the amount and type of emissions, the use of pollution control equipment is not proposed. There would be physical construction. Regulated air contaminants would be emitted by this source. Mr. M. Reynolds is the assigned Division person.

For the Putnam County "Cookeville Herald-Citizen"--published once on or before Thursday, May 5, 2005.

---

The applicant is Westequip/Holt Specialty Equipment with a mailing address of P.O. Box 99, Eagleville, TN 37060. They seek to obtain an air contaminant permit (Division identification number 75-0175-01/58153) for modification of a Spray Coating Operation located at 395 S Main Street, Eagleville, TN 37060. The requested modification is to replace an existing spray booth with a new spray booth. Exhaust filters would be used for pollution control. There would be physical construction. Regulated air contaminants are emitted by this source. Mr. M Ahmed is the assigned Division person.

For the Rutherford County "Daily News Journal"--published once on or before Thursday, May 5, 2005.
